Aids Canada in Farm Survey Work.

A representative of the United States department of agriculture has recently returned from Canada, where he assisted in outlining proposed farm survey work. The Ontario agricultural college has had representatives in this country to study our methods of conducting farm surveys, and similar methods are to be used in Canada. A study of the costs in different types of farming is to be made, with a view of determining the best farm practices.

GREAT STIR FOR REGISTRATION

All Mediums of Publicity Are Being Used in Vermont

TO GET MEN OUT
ON SEPTEMBER 12

It Is Hoped to Have a 100 Per Cent Enrollment

Adj. Gen. H. T. Johnson of Vermont is receiving the details relative to the manner in which the new registration is to take place Sept. 12 pursuant to the proclamation of President Wilson, issued Saturday. Every agency that can be used to give the matter publicity is being used. Newspapers are giving lots of space to it, while advertising agencies are preparing the copy to be used from their agencies. Letters giving general information to banks to be used by their patrons have been mailed. Carriers on rural free deliveries and star routes are being sent posters that will be placed in suitable locations. These include the statements relative to the penalties for failure to register.

Big shipments of publicity have been made to railroads, Red Cross, and chambers of commerce, to be distributed wherever the information can be read. The postmasters are asked to give general information to their patrons upon the draft and will be asked to post placards liberally in their offices. Speeches have been sent to the four-minute speakers and clergymen will be asked to call attention to the draft in their sermons next Sunday.

Not only have all of the above mediums of publicity been used but the movies and other theatres are to give an announcement of the date of the registration with each production. Labor union secretaries have been sent letters, calling the matter to the attention of the members of every union. The American Association of Foreign Languages newspapers will give liberally of their space to the registration.

Some of the mayors in the state have already indicated they are going to make proclamations relative to the registration, while prominent persons in the several towns have taken it upon themselves through the public safety committee to give wide publicity to the matter, which interests every person in this country in whose veins runs the red blood of American patriotism. Town clerks are already commencing to select their assistants, for they realize that the work of registering will be much greater than when it took place in June, 1917. Many state officers will be asked to help in different ways in the registration, which should be 100 per cent efficient.

Boys and Girls Plant Beet Seed for Syrup

Boys and girls in 18 states have planted 10,414 ounces of sugar-beet seed supplied them by the United States department of agriculture for the purpose of making sugar-beet syrup. The seed was secured through the bureau of plant industry and distributed by the states relation service to 18 state leaders of boys' and girls' club work in the North and West. Each boy and girl receiving an ounce of the seed is pledged to grow it and to make the beets into syrup. It is estimated that, with average yields, this might result in the home manufacture of more than 40,000 gallons of syrup, which may be used in many ways as a sugar substitute in general cooking.

OLD AGE A CRIME!

Some people are young at 60—re-checked, ruddy and vigorous. Others are old at 40—sallow, beginning to stiffen up a bit; step beginning to lag and lose its springiness; occasional twinges of pain in the back, feel tired without cause, and possibly a twinge of rheumatic pain.

In most cases these are the danger signals to warn you that the kidneys are not promptly doing their work of throwing off the poisons that are always forming in the body. To neglect these natural warnings is a crime against yourself. If you have these symptoms you can find prompt relief in GOLD MEDAL HARMON OIL Capsules. For more than 200 years this has been the recognized remedy for kidney and bladder ailments.

GOLD MEDAL HARMON OIL Capsules are imported direct from the laboratories at Harmon, Holland. Get them at your druggist's. Do not take a substitute. In boxes, three sizes.—Adv.
